<p>which meets the liability requirements for the insured to obtain a Certified Commercial Pesticide Applicator's License under the Missouri Pesticide Use Act, Section 281.065 which states:</p> <p>281.065. Bond or insurance required - deductible clause accepted, when - new surety, when - liability, effect of act on.</p> <p>1. The director shall not issue a certified commercial applicator's license until the applicant or the employer of the applicant has furnished evidence of financial responsibility with the director consisting either of a surety bond or a liability insurance policy or certification thereof, protecting persons who may suffer legal damages as a result of the operations of the applicant; except that, such surety bond or liability insurance policy need not apply to damages or injury to crops, plants or land being worked upon by the applicant. Following the receipt of the initial license, the certified commercial applicator shall not be required to furnish evidence of financial responsibility to the department for the purpose of license renewal unless upon request. Annual renewals for surety bonds or liability insurance shall be maintained at the business location from which the certified commercial applicator is licensed. Valid surety bonds or liability insurance certificates shall be available for inspection by the director or his or her designee at a reasonable time during regular business hours or, upon a request in writing, the director shall be furnished a copy of the surety bond or liability insurance certificate within ten working days of receipt of the request.</p> <p>2. The amount of the surety bond or liability insurance required by this section shall be not less than fifty thousand dollars for each occurrence. Such surety bond or liability insurance shall be maintained at not less than that sum at all times during the licensed period. The director shall be notified by the surety or insurer within twenty days prior to any cancellation or reduction of the surety bond or liability insurance. If the surety bond or liability insurance policy which provides the financial responsibility for the certified commercial applicator is provided by the employer of the certified commercial applicator, the employer of the certified commercial applicator shall immediately notify the director upon the termination of the employment of the certified commercial applicator or when a condition exists under which the certified commercial applicator is no longer provided bond or insurance coverage by the employer. The certified commercial applicator shall then immediately execute a surety bond or an insurance policy to cover the financial responsibility requirements of this section and the certified commercial applicator or the applicator's employer shall maintain the surety bond or liability insurance certificate at the business location from which the certified commercial applicator is licensed. The director may accept a liability insurance policy or surety bond in the proper sum which has a deductible clause in an amount not exceeding one thousand dollars; except that, if the bond- or policyholder has not satisfied the requirement of the deductible amount in any prior legal claim, such deductible clause shall not be accepted by the director unless the bond- or policyholder executes and maintains a surety bond or liability insurance which shall satisfy the amount of the deductible as to all claims that may arise in his or her application of pesticides.</p> <p>3. If the surety becomes unsatisfactory, the bond- or policyholder shall immediately execute a new bond or insurance policy and maintain the surety bond or liability insurance certificate at the business location from which the certified commercial applicator is licensed, and if he or she fails to do so, the director shall cancel his or her license, or deny the license of an applicant, and give him or her notice of cancellation or denial, and it shall be unlawful thereafter for the applicant to engage in the business of using pesticides until the bond or insurance is brought into compliance with the requirements of subsection 1 of this section. If the bond- or policyholder does not execute a new bond or insurance policy within sixty days of expiration of such bond or policy, the licensee shall be required to satisfy all the requirements for licensure as if never before licensed.</p> <p>4. Nothing in sections 281.010 to 281.115 shall be construed to relieve any person from liability for any damage to the person or lands of another caused by the use of pesticides even though such use conforms to the rules and regulations of the director.</p>
